

CRAFTER'S

AROMATIC FLOWER GIN

RECIPE N° 38

ROSE HIP FLOWERS AND MEADOWSWEET

AROMATIC AND FLORAL

A unique combination of 12 carefully selected aromatic herbs, distilled in the copper pot still for a rich and soft taste.

To create a truly elegant gin, we used rose hip flowers and meadowsweet, which are characteristic to Estonian coastline.

HANDCRAFTED IN ESTONIA

Handmade distillates are the masterpiece of Liviko's master distillers. Each bottle is finished by hand.

AROMA

Refreshingly aromatic, flowery. Round and complex. The rose hip flowers and meadowsweet are dominating. The sweet nuance of the flower petals is balanced by the bitterness of an orange peel, the freshness of yuzu and juniper berries.

TASTE

Juicy, round, a bit bitter. A rich and elegant bouquet of sweet flowers and crisp juniper. The soft taste is balanced by the freshness of the citruses.

MODERN ALCHEMY

Our master gin distiller experimented with the curious colour change of the rose hip petals. As a result the golden coloured gin turns to pink, when mixed with tonic. True gin magic!
